1 Ident	ification of the prepa	aration and company		
1.1.	Identification of the substance/preparation			
1.1.1.	Product name	Fragrance Vanilla Economy WFS 72135		
1.1.2.	Specifications	Ukrainian requirements specification 24.5-31613817-006-2004		
1.1.3.	Export tariff code	Ukrainian export tariff code 3302909000		
1.2.	Description of proc	tion of product and application domain		
1.2.1.	Description of product	Multicomponent mixture of natural and/or synthetic raw materials		
1.2.2.	Application domain	Used as raw materials for manufacturing of perfumery, cosmetics and household chemical goods		
1.3.	Company identification			
1.3.2.	General activity	Fragrance, flavour, auto cosmetology, industrial and home chemistry		
1.3.3.	Legal address	Georgia, Poti, Industrial Zone, Plot 545, Internal #265		
1.3.4.	Manufacture address	Georgia, Poti, Industrial Zone, Plot 545, Internal #265		
1.3.5.	Internet site	aromafrg.com		
1.3.6.	E-mail	p.kopaleishvili@gmail.com		
1.3.7.	Department of sales	p.kopaleishvili@gmail.com Monday-Friday (in working days) from 09:00 till 17:00		
1.3.8.	Responsible person for MSDS	Koba Kiladze, technologist - technolog		
1.4.	Emergency phone			
1.4.1.	Contact person	Koba Kiladze, technologist - technolog		
1.4.2.	Phone			
2 Haza	rds identification			
2.1.	GeneralFragrance is a mixture of organic components. Long contact with skin, in contact with the eyes and very intensive inhalation may cause irritation.			
2.2.	Conformity to specifications	The product is not classified hazardous in accordance with Directives 67/548/EEC and 1999/45/EC		
2.3.	Environment	When spilled, can contaminate soil, ground and surface water.		
2.4.	Additional information	Additional information can be indicated on the label (look section 15)		
3 Com	position/information

5.5.		Do not use a direct water stream on a burning material. Avoid a steam inhalation. Apply means of an individual defense of respiratory ways.				
6 Measures on prevention and liquidation of emergencies						
6.1.	6.1. Preventing emergency					
6.1.1.	Personal safety	Avoid excessive inhalation and contact with skin and eyes. Use gloves and protective clothes, compulsory ventilation.				
6.1.2.	Environment protection	You keep far from the surface of ground-waters and soil				
6.2.	Liquidation of emergencies					
6.2.1.	Personal safety	In case of allergic reactions will address to the qualified medical personnel				
6.2.2.	At fire	Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of steams.				
6.2.3.	Cleaning methods	Gross spillage should be contained immediately by use of sand or inert powder and utilized of according to local regulations. After product utilized carefully wash out water corresponding sites and accessories.				
7	Rules of appeal and storage					
7.1.	Storage	Store a product in strongly closed container, in well aired dark dry premise far from direct solar beams. Store far from sources of ignition and open fire. When transported and stored according to requirements, with the temperature from 0° to $+30^{\circ}$ C.				
7.2.	Appeal with a product	Take to the minimum inhalation and contact with a skin				
7.3.	Appeal after completion of shelf-life	If storage is made longer specified term, before use quality check is necessary				
7.4.	Appeal with a fire	It is necessary it will be discharged of sources of ignition and a naked flame				
8 Control of levels of influence and measure on personnel safety						
8.1.	Protection of breathing organs	Enough good natural ventilation. To avoid excessive inhalation of concentrated steams.				
8.2.	Protection of skin	To apply chemically proof rubber gloves				
8.3.	Protection of eyes	To use goggles, it is desirable with without splinters glasses				
9 Physical and chemical properties
